

UNIVERSITY OF IBADAN
DIRECTORATE OF QUALITY ASSURANCE (DQA)

CONCEPT NOTE
DQA DIGITAL QUALITY ASSURANCE
PLATFORM
DEVELOPMENT RETREAT

Theme:

*From Concept to Deployment: Building the University of
Ibadan Digital Quality Assurance Platform*

Date: Monday, 6 July – Friday, 10 July 2026
Venue: UI Hotels, University of Ibadan

“ doing the right thing right, every time ”

1. Background

The Directorate of Quality Assurance (DQA), University of Ibadan, has embarked on an ambitious digital transformation agenda aimed at repositioning quality assurance from periodic compliance to continuous, evidence-based institutional improvement.

Over the past few months, the Directorate has successfully developed several digital quality assurance initiatives, including:

- **Online data collection systems** for lecturer assessment and service delivery feedback
- **Interactive dashboards** for real-time quality monitoring (QAC Audit, Examination Quality, Student Complaints)
- **Institutional quality monitoring tools** for lecture tracking and administrative services
- The proposed **University of Ibadan Accreditation Readiness and Quality Monitoring (UI-AREQuM)** Framework
- **Student Assessment of Lecturers** – a mobile-friendly digital platform that has generated **160+ reports** since October 2025, now part of the promotion dossier

These initiatives have demonstrated the potential of digital technologies to improve institutional accountability, operational efficiency, and data-driven decision-making.

To consolidate these efforts, there is a need for an intensive working retreat that will bring together members of the Digital Platform Development Team to complete the design, integration, testing, documentation, and deployment of the pilot Digital Quality Assurance Platform.

The retreat is intended to provide uninterrupted time for collaborative system development and ensure that all agreed deliverables are completed before pilot implementation.

2. Goal

To complete, test, and launch the pilot version of the **University of Ibadan Digital Quality Assurance Platform**.

3. Objectives

The retreat seeks to:

1. Finalize the architecture and configuration of the Digital QA Platform

2. Integrate all existing DQA digital modules into a unified platform
3. Complete outstanding system development tasks
4. Test all modules for functionality, security, and usability
5. Develop user manuals and standard operating procedures
6. Produce implementation and deployment plans
7. Prepare the pilot system for presentation to University Management

4. Scope – Key Platform Features

The Digital QA Platform will integrate the following key modules based on existing DQA initiatives:

4.1 Live Dashboards

- **UI QAC Audit Dashboard** – QA Committee effectiveness data across all university units
- **Examination Quality Dashboard** – Examination administration & environment quality evaluation
- **Student Complaint Dashboard** – Service delivery feedback and complaint tracking system

4.2 Data Collection & Monitoring Tools

- **Student Assessment of Lecturers** – Mobile-friendly digital assessment form (QR code & direct link) for student evaluation of teaching effectiveness
- **Daily Lecture Monitoring Form** – Monitoring of daily lecture delivery across departments
- **Service Delivery & Complaint Form** – Monitoring of administrative service delivery across major student-facing units
- **Examination Administration Quality Form** – Quality assessment of examination administration by students

4.3 Accreditation Readiness

- **UI-AREQuM Framework** – Accreditation readiness and quality monitoring module
- Standardized electronic reporting templates for accreditation documentation

4.4 Institutional Documents

- **Quality Assurance Policy & Strategy** – Digital copy of the University of Ibadan Quality Assurance Policy document
- Orientation Debriefing Slides from QA Focal Persons Orientation Programme

5. DQA Role in Staff Assessment

The Directorate of Quality Assurance plays a critical role in the university's staff assessment and promotion processes:

5.1 Student Assessment of Lecturers

- The DQA has introduced a **digital, mobile-friendly platform** for student assessment of lecturers
- **Access Methods:** Students can access the form via:
 - **QR Code** displayed in lecture halls and departmental notice boards
 - **Direct Link:** <https://forms.gle/2REsmZaBZgFxXyLH7>
- **Supervision:** Heads of Department supervise the administration to ensure compliance and sincere feedback
- **Reporting:** Upon completion, HoDs send a WhatsApp message to the Director, DQA (08138840067) with:
 - Name of the Department
 - Name(s) of staff assessed
- **Milestone:** **160+ reports** generated since October 2025
- **Purpose:** Results form part of the **promotion dossier** for lecturers

5.2 Assessment Indicators

Students evaluate lecturers on the following 17 indicators:

1. Actively presents course content
2. Ensures course content is covered within time frame
3. Gives assignments which facilitate understanding
4. Has an impressive comportment

5. Is always punctual at lectures
6. Is available for consultation outside classroom
7. Is clear on the concepts taught in class
8. Links lecture material to practical or field works
9. Offers students opportunity to contribute or ask questions
10. Provides feedback after assignments submission
11. Teaches according to course outline
12. Teaches the class regularly
13. Updates the content of the course
14. Uses practical examples from real life scenarios
15. Appears neatly in class
16. Uses teaching method(s)/strategies
17. Uses technology or innovative strategies

6. Expected Deliverables

By the end of the retreat, the team is expected to produce:

1. A fully functional pilot Digital Quality Assurance Platform
2. Integrated user authentication and access control
3. Operational dashboards for all existing DQA monitoring systems
4. UI-AREQuM accreditation readiness module
5. Standardized electronic reporting templates
6. Administrator and user manuals
7. Data governance and security guidelines
8. Pilot implementation roadmap
9. Bug and enhancement register
10. Final technical presentation for Management

7. Expected Participants

- Director, Directorate of Quality Assurance
- Platform Development Team
- Dashboard Developers
- Database Administrator
- Software Developers
- Data Analysts
- QA FP Representatives

8. Expected Outcome

The retreat will culminate in the launch of the pilot Digital Quality Assurance Platform, providing the University with an integrated, scalable, and sustainable system for monitoring academic quality, accreditation readiness, institutional performance, and service delivery.

The platform will significantly:

- Reduce manual reporting
- Strengthen institutional accountability
- Provide Management with real-time quality assurance information
- Support evidence-based decision-making
- Streamline the student assessment of lecturers process
- Integrate all DQA digital initiatives into a unified system

9. Proposed Programme

DQA DIGITAL QUALITY ASSURANCE PLATFORM DEVELOPMENT RETREAT

Venue: UI Hotels, University of Ibadan

Date: 6–10 July 2026

DAY 1 – Monday, 6 July 2026

Theme: Project Alignment and System Architecture

8:30–9:00	Arrival and Registration
9:00–9:30	Opening Remarks and Retreat Objectives – Director, DQA
9:30–10:30	Review of Project Scope, Deliverables and Timeline – Project Coordinator
10:30–11:00	Tea Break
11:00–1:00	Review of Existing DQA Systems and Dashboards – Technical Team
1:00–2:00	Lunch
2:00–4:00	System Architecture Review and Integration Strategy – Development Team
4:00–5:30	Task Allocation and Sprint Planning – All Participants
7:00–8:30	Evening Review Session – Director & Team

DAY 2 – Tuesday, 7 July 2026

Theme: Module Development and Integration

8:30–9:00	Daily Stand-up Meeting
9:00–1:00	Parallel Development Sessions: - Accreditation Readiness Module - Examination Quality Module - Student Assessment of Lecturers Module - QA Committee Module
1:00–2:00	Lunch
2:00–5:00	Database Integration and API Development
7:00–8:30	Progress Review

DAY 3 – Wednesday, 8 July 2026**Theme: Dashboard Development and Analytics**

8:30–9:00	Daily Stand-up
9:00–11:00	Dashboard Design Review
11:00–1:00	Looker Studio Integration
1:00–2:00	Lunch
2:00–5:00	Report Automation and KPI Development
7:00–8:30	Technical Demonstrations

DAY 4 – Thursday, 9 July 2026**Theme: Testing, Validation and Documentation**

8:30–9:00	Daily Stand-up
9:00–12:00	System Testing
12:00–1:00	Bug Resolution
1:00–2:00	Lunch
2:00–4:30	Preparation of User Manuals and SOPs
4:30–5:30	Deployment Planning
7:00–8:30	Final Corrections

DAY 5 – Friday, 10 July 2026**Theme: Pilot Launch and Way Forward**

8:30–9:00	Daily Stand-up
9:00–11:00	Final System Demonstration
11:00–12:00	Pilot Launch Readiness Assessment
12:00–1:00	Presentation of Deliverables
1:00–2:00	Lunch
2:00–3:00	Roadmap for University-wide Roll-out
3:00–4:00	Retreat Evaluation and Lessons Learnt
4:00–4:30	Closing Remarks
4:30	Departure

Daily Working Arrangements

08:30–09:00	Daily stand-up and task review
13:00–14:00	Lunch
19:00–20:30	Evening review and planning session

11. Key Deliverables by Close of Retreat

- **Pilot Digital QA Platform** – Fully operational
- **Integrated quality assurance modules** – Including Student Assessment of Lecturers, Lecture Monitoring, and Service Delivery
- **Functional dashboards** – QAC Audit, Examination Quality, Student Complaints
- **UI-AREQuM Framework** – Embedded and operational
- **User manuals** – Completed for administrators and end-users
- **Standard Operating Procedures** – Developed for all modules
- **Deployment roadmap** – Approved and ready for implementation
- **Presentation package** – Finalized for University Management

12. Conclusion

The DQA Digital Quality Assurance Platform Development Retreat represents a critical milestone in the University of Ibadan's digital transformation journey. By bringing together the development team for an intensive working session, the Directorate aims to deliver a robust, integrated, and sustainable system that will:

- Embed **continuous quality monitoring** across all university units
- Streamline the **student assessment of lecturers** process
- Provide **real-time data** for evidence-based decision-making
- Strengthen **institutional accountability**
- Support **accreditation readiness** through the UI-AREQuM framework

...doing the right thing right, every time.

Professor O. E. Olubusoye
Director, Directorate of Quality Assurance
University of Ibadan
